PROFESSIONAL SUMMARY

Microsoft Certified (PL-400) Dynamics 365 CE & Power Platform Developer with 2+ years building enterprise CRM solutions across Dataverse, Model-Driven Apps, Power Automate, Power Pages, and custom C# plugins. Proven record of automating processes, integrating third-party systems, and shipping scalable solutions for 200+ users. Recently extended into AI by building MCP servers and LLM-powered agents that connect Dynamics 365 with modern AI tooling.

CORE SKILLS

Dynamics & Power Platform: Dynamics 365 CE, Dataverse, Model-Driven & Canvas Apps, Power Pages, Power Automate, Business Process Flows

Development: C#, .NET, Custom Plugins & Workflows, JavaScript (Xrm/Client API), TypeScript, Web Resources, FetchXML, OData, Web API

Integrations & Cloud: REST APIs, Azure Functions, Azure AD/Entra ID, B2C, QuickBooks, SevDesk, Xubio, Business Central

AI & Automation: Model Context Protocol (MCP) servers, LLM agent design, prompt engineering, Anthropic Claude & OpenAI APIs, AI Builder, Copilot Studio

DevOps & Web: Solution ALM, Power Platform Pipelines, Git, Azure DevOps, Angular, HTML5, CSS3

Certification: Microsoft Certified: Power Platform Developer Associate (PL-400)

PROFESSIONAL EXPERIENCE

Alphavima Technologies

Oct 2023 – Present

Power Platform Developer

Ahmedabad, India

Engineer – Power Platform

Apr 2025 – Present

- Engineered Dynamics 365 CE solutions across **6+ modules** supporting **200+ users**; shipped **10+ C# plugins** for pricing, tax, and invoicing logic, cutting manual errors by **40%**.
- Automated rental, billing, and approval processes with **15+ Power Automate cloud flows**, reducing processing time by **30%**.
- Integrated D365 with **4 accounting platforms** (QuickBooks, SevDesk, Xubio, Business Central) via REST APIs and Azure Functions, cutting reconciliation effort by **25%**.
- Built an **MCP server for Dynamics 365** exposing CRM data and actions to LLM agents for natural-language record retrieval, updates, and workflow execution.
- Developed a **Sales Validation AI Agent** using LLM reasoning over Dataverse to validate quotes and pricing rules, reducing invalid sales records by **35%**.

Associate Engineer – Power Platform

Oct 2023 – Mar 2025

- Customized **30+ Dataverse entities, forms, views, and dashboards**; wrote **20+ JavaScript (Xrm) scripts** for validations and calculations, reducing user errors by **35%**.
- Built and maintained **2 Power Pages portals** with secure, role-based external access; resolved **90%+ of production defects within SLA**.

TossCall Service

Jan 2023 – Jun 2023

Web Developer Intern

Bhilai, India

- Developed **10+ responsive web components** (HTML, CSS, JS) and supported backend integrations and bug fixes, reducing UI issues by **20%**.

KEY PROJECTS

MCP Server for Dynamics 365 CRM

Model Context Protocol, Dynamics 365 Web API

- Designed an MCP server exposing D365 entities and operations (query, create, update, run flows) as tools consumable by LLM clients like Claude and Copilot, with scoped permissions and secure auth.

Sales Validation AI Agent

LLM Agent, Dynamics 365, Power Automate

- Built an AI agent validating quotes against pricing tiers and discount policies; integrated with Power Automate to auto-flag invalid records and route exceptions, cutting invalid submissions by **35%**.

Prexa365 – Rental Management System

Dynamics 365 CE, C# Plugins, Power Automate

- Delivered end-to-end rental modules (Inventory, Contracts, Invoicing, Inspections) with complex pricing/tax logic and integrations to 4 accounting systems, reducing manual effort by **30%**.

Transport Bidding & Rental Booking Portals

Power Pages, Angular, Dynamics 365 CE

- Architected Power Pages portals integrated with Dataverse for real-time bid submission, quote management, and rental bookings; automated approvals via Power Automate.

EDUCATION

Bhilai Institute of Technology (BIT), Durg

2021 – 2023

Master of Computer Applications (MCA)

CGPA: 7.5
